

4 Courses

**Introduction to Accounting
Data Analytics and
Visualization**

**Accounting Data Analytics
with Python**

**Machine Learning for
Accounting with Python**

**Data Analytics in Accounting
Capstone**

Jun 13, 2022

INGRID CARDOSO DA SILVA

has successfully completed the online, non-credit Specialization

Accounting Data Analytics

This certifies proves that the learner has developed an analytics mindset and knowledge of data analytics tools and techniques. The learner has developed skills to use multiple tools and techniques (including Excel, Python, and Tableau) for data preparation, data visualization, data analysis, and data interpretation and the ability to apply such skills to real-world problems. The learner has also developed skills in machine learning using Python, including classification, regression, clustering, text analysis, time series analysis, and model optimization, as well as the ability to apply these skills to real-world problems.

Linden Lu
Instructor
Department of
Accountancy

Ronald Guymon
Senior Lecturer of
Accountancy
Department of
Accountancy at Gies
College of Business

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
